

# Montessori Konstruktive Dreiecke (12 blaue Dreiecke)

schauen - legen - kontrollieren

[www.zaubereinmaleins.de](http://www.zaubereinmaleins.de)

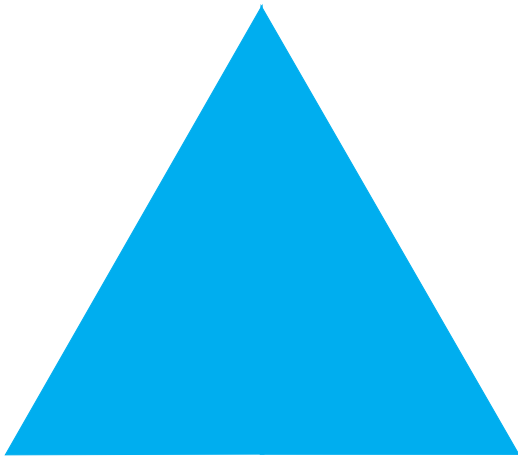

Die konstruktiven Dreiecke nach Montessori bieten den Kindern ganz handlungsorientiert die Gelegenheit, praktische Erfahrungen mit der Flächengeometrie zu machen. Durch das Aneinanderlegen und Spiegeln der einzelnen Dreiecke können die Kinder die Entstehung anderer geometrischer Formen erfassen

Viel Spaß mit der Kartei!

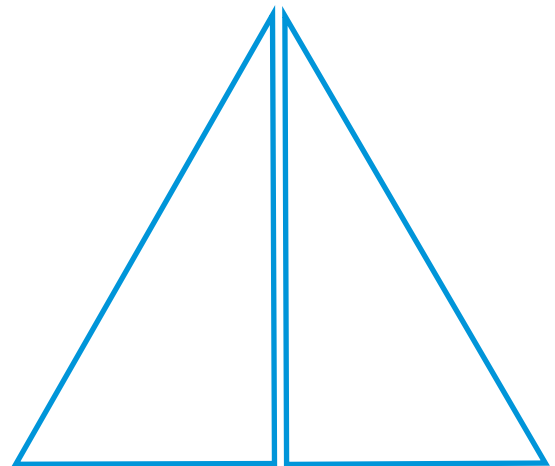

Susanne Schäfer
